A non-final Office Action was issued on January 10, 2006. On July 10, 2006, after numerous requests for instructions, Assignee finally instructed its counsel to file a continuation application based on U.S. Patent Application Serial Number 10/672,104, along with a Preliminary Amendment in order to amend the current set of claims and incorporate continuation information. Counsel for Assignee prepared and filed a continuation application along with a Preliminary Amendment on July 10, 2006. Late in the afternoon of July 10, 2006, Assignee also instructed its Counsel to file an Amendment and Reply to the January 10, 2006 Office Action in U.S. Patent Application Serial Number 10/672,104; however, Counsel for Assignee did not receive the instructions until too late in the afternoon on July 10, 2006 to meet the deadline at the U.S. Patent and Trademark Office. Assignee's office is in California (Pacific Standard Time) and its Counsel's office is in Texas (Central Standard Time).

There was never an intention on the part either party to abandon this application from April 10, 2006 until August 29 2006. The Commissioner is respectfully requested to revive this unintentionally abandoned application.

Respectfully submitted,
